

## Forest School News

Year 1 have enjoyed Forest Sessions linked to their learning about castles and the middle ages. They have had a go at grinding a variety of grains to make flour; baking bread in a dutch oven on the campfire and making their own fresh butter to have with it; weaving willow to make a wattle and daub wall and trying on some Norman armour.

**Reception children have been busy gardening.**

We have planted out the broad bean and carrot plants we sowed before Easter and mounded up the potatoes plants that were starting to poke through. Reception also made pizza wraps to cook on the campfire. They were yummy!

**Gardening for everyone:**

The vegetable beds will now be taken care of by one class at a time so that everyone in the school will have a go at some gardening over the summer term. Reception and KS1 will look after the beds in the pond area and KS2 will look after the beds on the KS2 playground.
