

**Science in EYFS:**

In Nursery and Reception, children develop scientific knowledge, understanding and vocabulary through topics including: Seasonal Changes, Explorers, People Who Help Us, Floating and Sinking, All About Me, Around the World. Topics may vary to reflect the children's interests.

Children regularly have the opportunity to: grow plants; explore how sounds are made; explore changes through cooking; explore materials through building.

**Nursery Objectives:**

Use all their senses in hands-on exploration of natural materials.  
Explore collections of materials with similar and/or different properties.  
Talk about what they see, using a wide vocabulary  
Explore how things work.  
Plant seeds and care for growing plants.  
Understand the key features of the life cycle of a plant and an animal.  
Begin to understand the need to respect and care for the natural environment and all living things.  
Explore and talk about different forces they can feel.  
Talk about the differences between materials and changes they notice.

**Reception Objectives:**

Explore the natural world around them  
Describe what they see, hear and feel whilst outside.  
Understand the effect of changing seasons on the natural world around them.

**Topic overview Key stages 1 and 2**

Throughout key stages 1 and 2, science topics are regularly revisited. Prior learning is reviewed and consolidated and new learning introduced.

	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
Year 1	Animals including humans Seasonal changes including observations on an Autumn walk		Materials and their properties Seasonal changes		Plants Seasonal changes including shadows and the length of days	
Year 2	Uses of every day materials and exploring their properties	Living things and their habitats (Forest School and English link to The Mole Who Knew it was None of his Business)		Animals including humans	Plants	Animals including humans
Year 3	Plants	Animals, including humans	Rocks and soils	light	Forces and magnets	Plants revision
Year 4	Electricity	States of matter	Sound	Animals including humans	Living things and their habitats	
Year 5	Forces	Properties of and changes in materials	Earth and space		Living things and their habitats including the life cycle of plants	Animals including humans
Year 6	Living things and their habitats	Light	Evolution and inheritance Animals, including humans		Electricity	KS2 revision Animals including humans

**Plants**

Objectives	
Children learn to:	Year
<ul style="list-style-type: none"> <li>Identify and name a variety of common wild and garden plants, including deciduous and evergreen trees.</li> </ul>	<b>1</b>
<ul style="list-style-type: none"> <li>Identify and describe the basic structure of a variety of common flowering plants, including trees.</li> </ul>	<b>1</b>
<ul style="list-style-type: none"> <li>Observe and describe how seeds and bulbs grow into mature plants.</li> </ul>	<b>2</b>
<ul style="list-style-type: none"> <li>Find out and describe how plants need water, light and a suitable temperature to grow and stay healthy.</li> </ul>	<b>2</b>
<ul style="list-style-type: none"> <li>Identify and describe the functions of different parts of flowering plants: roots, stem/trunk, leaves and flowers.</li> </ul>	<b>3</b>
<ul style="list-style-type: none"> <li>Explore the requirements of plants for life and growth (air, light, water, nutrients from soil, and room to grow) and how they vary from plant to plant.</li> </ul>	<b>3</b>
<ul style="list-style-type: none"> <li>Investigate the way in which water is transported within plants.</li> </ul>	<b>3</b>
<ul style="list-style-type: none"> <li>Explore the part that flowers play in the life cycle of flowering plants, including pollination, seed formation and seed dispersal.</li> </ul>	<b>3</b>

**Animals, including Humans**

Liver

Stomach

Brain

Heart

Objectives	
Children learn to:	Year
<ul style="list-style-type: none"> <li>Identify and name a variety of common animals including fish, amphibians, reptiles, birds and mammals.</li> </ul>	1
<ul style="list-style-type: none"> <li>Identify and name a variety of common animals that are carnivores, herbivores and omnivores.</li> </ul>	1
<ul style="list-style-type: none"> <li>Describe and compare the structure of a variety of common animals (fish, amphibians, reptiles, birds and mammals, including pets).</li> </ul>	1
<ul style="list-style-type: none"> <li>Identify, name, draw and label the basic parts of the human body and say which part of the body is associated with each sense.</li> </ul>	1
<ul style="list-style-type: none"> <li>Notice that animals, including humans, have offspring, which grow into adults.</li> </ul>	2
<ul style="list-style-type: none"> <li>Find out about and describe the basic needs of animals, including humans, for survival (water, food and air).</li> </ul>	2
<ul style="list-style-type: none"> <li>Describe the importance for humans of exercise, eating the right amounts of different types of food, and hygiene.</li> </ul>	2
<ul style="list-style-type: none"> <li>Identify that animals, including humans, need the right types and amount of nutrition, and that they cannot make their own food; they get nutrition from what they eat.</li> </ul>	3
<ul style="list-style-type: none"> <li>Identify that humans and some other animals have skeletons and muscles for support, protection and movement.</li> </ul>	3
<ul style="list-style-type: none"> <li>Describe the simple functions of the basic parts of the digestive system in humans.</li> </ul>	4
<ul style="list-style-type: none"> <li>Identify the different types of teeth in humans and their simple functions.</li> </ul>	4
<ul style="list-style-type: none"> <li>Construct and interpret a variety of food chains, identifying producers, predators and prey.</li> </ul>	4
<ul style="list-style-type: none"> <li>Describe the changes as humans develop to old age.</li> </ul>	5
<ul style="list-style-type: none"> <li>Identify and name the main parts of the human circulatory system, and describe the functions of the heart, blood vessels and blood.</li> </ul>	6
<ul style="list-style-type: none"> <li>Recognise the impact of diet, exercise, drugs and lifestyle on the way their bodies function.</li> </ul>	6
<ul style="list-style-type: none"> <li>Describe the ways in which nutrients and water are transported within animals, including humans.</li> </ul>	6

### Living things and their Habitats

Objectives	Year
<b>Children learn to:</b> <ul style="list-style-type: none"> <li>Identify that most living things live in habitats to which they are suited and describe how different habitats provide for the basic needs of different kinds of animals and plants, and how they depend on each other.</li> </ul>	2
<ul style="list-style-type: none"> <li>Explore and compare the differences between things that are living, dead, and things that have never been alive.</li> </ul>	2
<ul style="list-style-type: none"> <li>Identify and name a variety of plants and animals in their habitats, including micro-habitats.</li> </ul>	2
<ul style="list-style-type: none"> <li>Describe how animals obtain their food from plants and other animals, using the idea of a simple food chain, and identify and name different sources of food.</li> </ul>	2
<ul style="list-style-type: none"> <li>Recognise that living things can be grouped in a variety of ways.</li> </ul>	4
<ul style="list-style-type: none"> <li>Explore and use classification keys to help group, identify and name a variety of living things in their local and wider environment.</li> </ul>	4
<ul style="list-style-type: none"> <li>Recognise that environments can change and that this can sometimes pose dangers to living things.</li> </ul>	4
<ul style="list-style-type: none"> <li>Describe the differences in the life cycles of a mammal, an amphibian, an insect and a bird.</li> </ul>	5
<ul style="list-style-type: none"> <li>Describe the life process of reproduction in some plants and animals.</li> </ul>	5
<ul style="list-style-type: none"> <li>Describe how living things are classified into broad groups according to common observable characteristics and based on similarities and differences, including micro-organisms, plants and animals.</li> </ul>	6
<ul style="list-style-type: none"> <li>Give reasons for classifying plants and animals based on specific characteristics.</li> </ul>	6

Objectives	Year
<b>Children learn to:</b>	
<ul style="list-style-type: none"> <li>Distinguish between an object and the material from which it is made.</li> </ul>	1
<ul style="list-style-type: none"> <li>Identify and name a variety of everyday materials, including wood, plastic, glass, metal, water, and rock.</li> </ul>	1
<ul style="list-style-type: none"> <li>Describe the simple physical properties of a variety of everyday materials.</li> </ul>	1
<ul style="list-style-type: none"> <li>Compare and group together a variety of everyday materials based on their simple physical properties.</li> </ul>	1
<ul style="list-style-type: none"> <li>Identify and compare the uses of a variety of everyday materials, including wood, metal, plastic, glass, brick/rock, and paper/cardboard.</li> </ul>	2
<ul style="list-style-type: none"> <li>Compare and group materials together, according to whether they are solids, liquids or gases.</li> </ul>	4
<ul style="list-style-type: none"> <li>Observe that some materials change state when they are heated or cooled, and measure or research the temperature at which this happens in degrees Celsius (°C).</li> </ul>	4
<ul style="list-style-type: none"> <li>Identify the part played by evaporation and condensation in the water cycle and associate the rate of evaporation with temperature.</li> </ul>	4
<ul style="list-style-type: none"> <li>Compare and group together everyday materials based on their properties, including their hardness, solubility, transparency, conductivity (electrical and thermal), and response to magnets.</li> </ul>	5
<ul style="list-style-type: none"> <li>Know that some materials will dissolve in liquid to form a solution, and describe how to recover a substance from a solution.</li> </ul>	5
<ul style="list-style-type: none"> <li>Use knowledge of solids, liquids and gases to decide how mixtures might be separated, including through filtering, sieving and evaporating.</li> </ul>	5
<ul style="list-style-type: none"> <li>Give reasons, based on evidence from comparative and fair tests, for the particular uses of everyday materials, including metals, wood and plastic.</li> </ul>	5
<ul style="list-style-type: none"> <li>Demonstrate that dissolving, mixing and changes of state are reversible changes.</li> </ul>	5
<ul style="list-style-type: none"> <li>Explain that some changes result in the formation of new materials, and that this kind of change is not usually reversible, including changes associated with burning and the action of acid on bicarbonate of soda.</li> </ul>	5

**Rocks and Soils**

Objectives		
Children learn to:		Year
<ul style="list-style-type: none"> <li>Compare and group together different kinds of rocks based on their appearance and simple physical properties.</li> </ul>		3
<ul style="list-style-type: none"> <li>Describe in simple terms how fossils are formed when things that have lived are trapped within rock.</li> </ul>		3
<ul style="list-style-type: none"> <li>Recognise that soils are made from rocks and organic matter.</li> </ul>		3

**Sound**

Objectives		
Children learn to:		Year
<ul style="list-style-type: none"> <li>Identify how sounds are made, associating some of them with something vibrating.</li> </ul>		4
<ul style="list-style-type: none"> <li>Recognise that vibrations from sounds travel through a medium to the ear.</li> </ul>		4
<ul style="list-style-type: none"> <li>Find patterns between the pitch of a sound and features of the object that produced it.</li> </ul>		4
<ul style="list-style-type: none"> <li>Find patterns between the volume of a sound and the strength of the vibrations that produced it.</li> </ul>		4
<ul style="list-style-type: none"> <li>Recognise that sounds get fainter as the distance from the sound source increases.</li> </ul>		4

Light

Objectives	
Children learn to:	Year
<ul style="list-style-type: none"> <li>Recognise that they need light in order to see things and that dark is the absence of light.</li> </ul>	3
<ul style="list-style-type: none"> <li>Notice that light is reflected from surfaces.</li> </ul>	3
<ul style="list-style-type: none"> <li>Recognise that light from the sun can be dangerous and that there are ways to protect their eyes.</li> </ul>	3
<ul style="list-style-type: none"> <li>Recognise that shadows are formed when the light from a light source is blocked by a solid object.</li> </ul>	3
<ul style="list-style-type: none"> <li>Find patterns in the way that the size of shadows change.</li> </ul>	3
<ul style="list-style-type: none"> <li>Use the idea that light travels in straight lines to explain that objects are seen because they give out or reflect light into the eye.</li> </ul>	6
<ul style="list-style-type: none"> <li>Explain that we see things because light travels from light sources to our eyes or from light sources to objects and then to our eyes.</li> </ul>	6
<ul style="list-style-type: none"> <li>Use the idea that light travels in straight lines to explain why shadows have the same shape as the objects that cast them.</li> </ul>	6

**Forces**

Objectives	Year
<b>Children learn to:</b>	
<ul style="list-style-type: none"> <li>• Compare how things move on different surfaces.</li> </ul>	<b>3</b>
<ul style="list-style-type: none"> <li>• Notice that some forces need contact between two objects, but magnetic forces can act at a distance.</li> </ul>	<b>3</b>
<ul style="list-style-type: none"> <li>• Observe how magnets attract or repel each other and attract some materials and not others.</li> </ul>	<b>3</b>
<ul style="list-style-type: none"> <li>• Compare and group together a variety of everyday materials based on whether they are attracted to a magnet, and identify some magnetic materials.</li> </ul>	<b>3</b>
<ul style="list-style-type: none"> <li>• Describe magnets as having two poles.</li> </ul>	<b>3</b>
<ul style="list-style-type: none"> <li>• Predict whether two magnets will attract or repel each other, depending on which poles are facing.</li> </ul>	<b>3</b>
<ul style="list-style-type: none"> <li>• Explain that unsupported objects fall towards the Earth because of the force of gravity acting between the Earth and the falling object.</li> </ul>	<b>5</b>
<ul style="list-style-type: none"> <li>• Identify the effects of air resistance, water resistance and friction.</li> </ul>	<b>5</b>
<ul style="list-style-type: none"> <li>• Recognise that some mechanisms, including levers, pulleys and gears, allow a smaller force to have a greater effect.</li> </ul>	<b>5</b>

## Electricity

Objectives	
Children learn to:	Year
<ul style="list-style-type: none"> <li>Identify common appliances that run on electricity.</li> </ul>	<b>4</b>
<ul style="list-style-type: none"> <li>Construct a simple series electrical circuit, identifying and naming its basic parts, including cells, wires, bulbs, switches and buzzers.</li> </ul>	<b>4</b>
<ul style="list-style-type: none"> <li>Identify whether or not a lamp will light in a simple series circuit, based on whether or not the lamp is part of a complete loop with a battery.</li> </ul>	<b>4</b>
<ul style="list-style-type: none"> <li>Recognise that a switch opens and closes a circuit and associate this with whether or not a lamp lights in a simple series circuit.</li> </ul>	<b>4</b>
<ul style="list-style-type: none"> <li>Recognise some common conductors and insulators, and associate metals with being good conductors.</li> </ul>	<b>4</b>
<ul style="list-style-type: none"> <li>Associate the brightness of a lamp or the volume of a buzzer with the number and voltage of cells used in the circuit.</li> </ul>	<b>6</b>
<ul style="list-style-type: none"> <li>Compare and give reasons for variations in how components function, including the brightness of bulbs, the loudness of buzzers and the on/off position of switches.</li> </ul>	<b>6</b>
<ul style="list-style-type: none"> <li>Use standard symbols when representing a simple circuit in a diagram.</li> </ul>	<b>6</b>

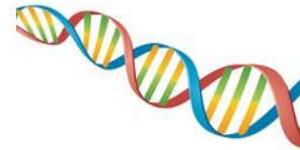

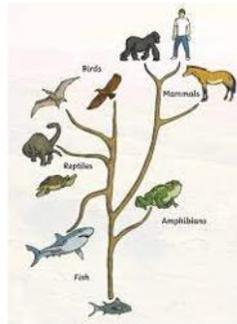

**Earth and Space**

Objectives	
Children learn to:	Year
<ul style="list-style-type: none"> <li>Describe the movement of the Earth, and other planets, relative to the Sun in the solar system.</li> </ul>	5
<ul style="list-style-type: none"> <li>Describe the movement of the Moon relative to the Earth.</li> </ul>	5
<ul style="list-style-type: none"> <li>Describe the Sun, Earth and Moon as approximately spherical bodies.</li> </ul>	5
<ul style="list-style-type: none"> <li>Use the idea of the Earth's rotation to explain day and night and the apparent movement of the sun across the sky.</li> </ul>	5

**Evolution and Inheritance**

Objectives	
Children learn to:	Year
<ul style="list-style-type: none"> <li>Recognise that living things have changed over time and that fossils provide information about living things that inhabited the Earth millions of years ago.</li> </ul>	6
<ul style="list-style-type: none"> <li>Recognise that living things produce offspring of the same kind, but normally offspring vary and are not identical to their parents.</li> </ul>	6
<ul style="list-style-type: none"> <li>Identify how animals and plants are adapted to suit their environment in different ways and that adaptation may lead to evolution.</li> </ul>	6
